SKILLS

- **Languages:** C++, Java, JavaScript, OOPs, PHP
- **Frameworks:** HTML and CSS, Bootstrap, NodeJS, Express.js, React
- **Tools/Platforms:** MySQL, MongoDB, AutoCAD, SketchUp, Canva
- **Soft Skills:** Team Player, Project Management, Adaptability

TRAINING

- **Full-Stack Development Training – MERN Stack** June 2024- July 2024
 - Completed hands-on training in **MERN (MongoDB, Express.js, React, Node.js) stack development**, gaining practical experience in full-stack web development.
 - Gained expertise in **building dynamic web applications, developing RESTful APIs, and integrating frontend with backend** for seamless functionality.
 - Implemented **user authentication and authorization** using JWT for secure access control and session management.
 - Worked with **MongoDB for efficient data storage and retrieval**, implementing CRUD operations.
 - Designed **responsive UI components using React**, ensuring smooth user experience and state management.
 - Utilized **Express.js and Node.js** for backend logic, handling API requests, and improving server performance.
 - Explored **deployment strategies** using platforms like **Heroku and Vercel** for hosting applications.

PROJECTS

- **Food Time - Online Food Ordering Website:** November 2024
 - Developed **Food Time**, a food ordering website that allows users to browse menus, add items to the cart, and place orders directly through the platform.
 - Implemented an **interactive user interface** with form validation for a seamless ordering experience.
 - Integrated **real-time order updates** to enhance functionality.
 - Designed a **responsive layout** using **Bootstrap** for better user accessibility.
 - Optimized **website performance** to ensure fast loading and smooth user interactions.**Tech:** HTML, CSS, JavaScript, Bootstrap.
- **Daily Expenses - Expense Tracking Website:** April 2024
 - Developed **Daily Expenses**, a web application to help users track their daily expenses efficiently.
 - Implemented **features for adding, editing, and deleting expenses**, along with categorized expense tracking.
 - Designed an **intuitive UI** with form validation to ensure accurate data entry.
 - Integrated **MySQL database** for secure and efficient data storage.
 - Used **PHP for backend logic**, handling user input and database interactions.
 - Ensured **data security and validation** to prevent incorrect or duplicate entries.**Tech:** HTML, CSS, JavaScript, MySQL, PHP

CERTIFICATES

- Full-Stack Development Using MERN Stack. June 2024- July 2024
- Cloud computing by NPTEL . July 2024- October 2024
- The Bits and Bytes of Computer Networking by Google January 2024- February 2024
- 100 Days of Code: The Complete Python Pro Bootcamp by Dr. Angela Yu August 2022- November 2022
- The Complete Full-Stack Web Development Bootcamp September 2022- December 2022

ACHIEVEMENTS

- **Solved Over 100+ Data Structures and Algorithms Problem:** January 2025
On Platforms like Leetcode and GeeksforGeeks.
- **Achieved a Three-Star Rank in Java and C++ on HackerRank:** April 2024
Demonstrating proficiency in key programming languages.

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.10 Since January 2025
- **DAV Public School** Jamshedpur, Jharkhand
Intermediate; Percentage: 86% April 2020 - March 2022
- **Sri Prakash Vidya Niketan** Visakhapatnam, Andhra Pradesh
Matriculation; Percentage: 79% April 2012 - March 2020
